

ELAINE RODDY

Quilt Artist | Handmade Textile Art

“I am a quilter! My desire is to create a quilt that will make someone smile. I want to feel the fabric and see the colors that are pleasing together. Quilters are dedicated to the craft of choosing fabric and creating designs that reflect personality. Like, a painter, I want to share my vision through a piece that is both practical and beautiful. Do you see what I see?”

Elaine Roddy is a quilt artist whose work celebrates color, craftsmanship, and the beauty of handmade textiles. Through carefully selected fabrics and thoughtfully constructed patterns, she creates quilts that are both visually striking and deeply personal. Her pieces blend artistic design with practical function, reflecting the tradition of quilting while embracing the creativity of contemporary textile art.
